Report from the President

By: *Spencer L. Matusky '02,*
House Association President

The Time is Now

Brothers, as **Ken Cooper '76** outlines below, more money has been spent on necessary renovations and upkeep this year than any other in over a decade. It is a result of the normal activity of a fraternity going on for seventy years. The floors were re-finished, but are paper thin and on their last leg. The electrical wiring and steam piping is old and wearing thin. The simple fact is that due to a lack of funds we have put off a major overhaul, and we simply cannot wait any longer.

State College Code requires that Fraternity Houses install a complete sprinkler system by September 2008. Failure to comply will result in the house being shut down by the local authorities. Performing such a project will involve the removal of ceilings, insulating the walls and roof, and upgrading the water service. With such a large mandated project looming, NOW is the time to raise funding and overhaul the house bringing it up to today's standards. We all want the house to remain a part of our Penn State memory and

remain a Chi Phi house. A united effort will be required to accomplish this goal.

We have looked into fundraising from several different angles over the last few years. A company can be hired to assist with a capital campaign. However, they typically take around 40% as their fee. I think that our brotherhood can pull together to find a way to resolve the funding issue. **Bob Martin '87** is putting together a fundraising plan. It will most likely involve teams of alumni working together to raise the money. In addition the overhaul has to be designed. We will have to hire an engineering firm unless we can get brothers in the construction/engineering industry to lend a hand.

Chi Phi was built on the bonds of brotherhood through the ages. We must now rely on those bonds to bring 360 East Hamilton Avenue into a new era. Everyone can contribute in one way or another, everyone brings something different to the table. It will take a group effort to accomplish this high yet very attainable goal. ■

Thank YOU!

We would like to extend our sincere gratitude towards those Alumni who have shown inexhaustible generosity in aiding us towards the improvement of the Kingdom. Recently, a fair amount of major renovations have occurred at the house thanks to your support. These renovations run, not only aesthetically, but also through the addition of a strong new member class. They include the sanding and staining of the club room floors as well as the surfaces of the wooden spiral staircases. These improvements are highly visible from the outside of the house when club room lights are on, due to the installation of the new light fixtures. The active members of the fraternity would once again like to take this opportunity to thank the alumni for their continued effort to maintain the strength of this house and its continuous tradition of excellence.

Sincerely,

The Active Brothers of The Alpha Delta Chapter ■

Report from the Treasurer

By *Kenneth J. Cooper '76,*
House Association Treasurer

Not in over a decade have there been more improvements to the house in such a short span of time. The following summary describes the improvements and costs since last Blue White meeting (only ten months):

Club Floor Refinishing.....	\$5,864
Fire Alarm Repairs and Service	5,833
General Maintenance (boiler, dishwasher, etc.)	2,852
Landscaping.....	1,955
Roof Repairs	1,725
Club Lighting Globe Replacement	<u>1,127</u>
Total	19,356

This is an increase of \$16,000 over the normal physical plant budget. Our current dues will not support this amount of repairs for much longer. A capital campaign is vital to the future and the restoration of the house.

A full financial report will be presented at the annual meeting. ■

A Few Words from the Alpha

Greetings from the Kingdom! I am pleased to report that all is well and that our road to recovery is getting smoother.

Upon arriving at the house after winter break, the active brothers were surprised and pleased to see major renovations in progress, most notably with the club room floors. For these improvements we would like to express our undying gratitude to the alumni board, and all of the donors who have made this possible. The house looks amazing!

With the addition of twelve quality men from the fall semester, active membership is at a two year high (while only losing one to graduation this spring), we have started holding brotherhood education meetings to teach the new members the facets of a strong rush program. These meetings are also serving as a chance to reposition our image, build stronger bonds, and create a strategic plan for the future.

Efforts to reclaim our superior social standing are also in full swing. Our devoted social tandem, Brothers Eric Balboni and Kyle Kassel, have put together numerous innovative and entertaining events. This has occurred in the face of further initiatives to crackdown on Fraternities. In spite of this, our elevated awareness and perseverance have protected the chapter and should help us continue to step forward.

Overall, the current goal of the chapter is to elevate our standing in the Greek community. To achieve this goal we have increased the level of participation in various events, namely the individual philanthropy events and the dance marathon. Our long term is to raise enough money to be recognized as a leading contributor to THON, and to pair with a sorority to compete with the top ten pairings.

Furthermore, I would like to mention that myself and the current Beta, Mike Pasterick have made plans to attend the Regional Leadership Alliance at the Pi Zeta chapter in Binghamton, NY from March 26-28. National has been requesting our attendance at similar conferences for years now, and by attending we hope to show our devotion to the fraternity, and to potentially come back with information to further improve Alpha Delta.

In closing, I would like to make a plea to those who have not been to the house in the past few years to come to Blue-White weekend on the 24-25 of April. None of the actives have experienced a large alumni gathering, and I personally feel that it is an integral part of the fraternity experience. As much as we appreciate the financial support from you, there is no substitute for physical presence and personal encouragement.

We thank you, and hope to meet as many of you as possible in April. ■
